[ZOOM VIRTUAL EVENT](#)

The **Worcester Regional Research Bureau** released [Broadening Broadband: Considering Municipal Ownership as a Solution to Worcester's Internet Challenges](#) earlier in July. Since then, there has been significant discussion around Worcester's internet challenges and opportunities.

The Research Bureau is pleased to host its first virtual event - a presentation on Broadening Broadband to inform the public debate and answer questions regarding the report. Mayor Joseph Petty will join us to provide additional context to the City's efforts on behalf of the residents and businesses in the city.
