# Learning from the Pandemic

## *Lessons from State & National Perspectives*

As the COVID-19 pandemic endures and students continue remote learning, this panel is convened to shed light on educational excellence through remote learning, hybrid, and in-person learning. A panel of experts will discuss the educational impacts of COVID-19 on student learning, performance, and well-being. They will offer their thoughts & recommendations on short-term & long-term issues that face our students and educational systems.
